

Family Scavenger Hunt

Check off each clue as you go, and enjoy this little activity to keep you busy until Santa comes!

- Let's go on another scavenger hunt, but this time it's Christmas themed
To start, **find a Christmas tree**, whose lights have twinkled and gleamed
- Up next, it's the colour of the season, we see it everywhere
Find something red, as it's sure to be a festive affair
- The snow is finally here and the city is covered in a blanket of white
So head outside and **make a snow angel**, they're always a beautiful sight
- If you're out in the fresh air, you'll need to cover your ears
Find a tuque and if you find one with a pom-pom, you get extra cheers
- This next clue might take you a little time; while you could just find one
We'd rather you **make a snowman**, you'll be so proud when you're done
- It's definitely time to start doing fun things outside, like skating and sledding
Find some footprints in the snow, in the right direction, you'll be heading
- And one last clue for your search while you're out and about
Look for sparkling Christmas lights and when you find them, give a shout
- Head back inside, stomp off your boots and put them away
And **find something sparkly**, anything at all, any which way
- Next is something you might normally leave out for Santa
Look for some cookies...but did you ever wonder if he might like a banana?
- The best part of this time of year is being generous with those we love
So **find a present** all wrapped up for someone special you thought of!
